## *10 Lamentation d'Orphée*

Narrateur :  
Le vent s'est levé sur le fleuve des Enfers...  
Le passage est rétabli entre le chaos et le cosmos.  
Orphée se souvient...

Orphée se souvient.  
Il pleure celle qu'il a perdue deux fois

La douleur a maintenant un visage et un nom, ceux d'Eurydice.  
Mais aucun mot ne peut en rendre compte

Apollon, sauras-tu entendre le cri de ton enfant ?
